

Wisper 150nm Motor

One of our most popular tube motors, the 150Nm motor, is highly versatile and offers exceptional flexibility. It can be equipped with an optional 9G adapter and is compatible with our 18mm square brake and shaft. This motor includes two fitting brackets: a flat plate and a star bracket, ensuring ease of installation. Please note that it is designed for use exclusively with a 4" tube. To determine the most suitable motor for your needs, we recommend using our calculation tool.
