

Gorry 60nm Motor

The 60Nm motor is the smallest single-phase tube motor offered by IRSD. While we do not manufacture using this specific motor, it is expertly designed for small roller shutters or light-duty applications, particularly those involving aluminum materials. The 60Nm motor is highly versatile and comes equipped with all available adapters, including 16G, 60mm, and 70mm octagonal options, ensuring compatibility with a variety of setups. This makes it an ideal choice for applications where a compact and efficient solution is required.

Please contact our sales team for more information.
